## Breathtaking natural beauty

2

Beaches, coves, natural spaces and cultural attractions... the Costa Brava is all this and much more: full of medieval villages and home of the major international contemporary art icon Salvador Dalí.

This is a coastline that seduces visitors with the beauty of its beaches, of excellent quality, like San Pol, and its coves, some of which are real hidden paradises among the cliffs, where activities include sailing, diving and waterskiing, among others. Another of its charms is the Mediterranean character of the neighbouring towns, like Cadaqués or Calella, and their people. There are places of singular beauty, like the bay of Roses, Banyoles lake or the Cap Roig botanical garden will captivate visitors.

## Cultural legacy

The Costa Brava also has lots of cultural activities in store for you: Salvador Dalí's vast legacy in Empordà; the monastery of Sant Pere de Rodes and the Peratallada castle; medieval towns such as Tossa de Mar, Púbol and Pals; the ruins of Empúries, an exceptional testimony of Greek and Roman civilisations; the pottery tradition of La Bisbal; and the old town of Girona, with its historical gem - the Jewish quarter.

# MICE Experience

Here at **ILUNION Hotels**, we want our guests to enjoy the city in a different way. We want our groups to enjoy an **all-round experience that combines business and leisure**: creative meetings, cultural initiatives, participatory activities, and interaction with nature or the city.

In addition to classic events, we've come up with **team-building activities** focused on team work that range from simple adventures to more physically demanding activities.

## Golf clinic

The Costa Brava is known for its sprawling golf courses Golf Costa Brava, Platja de Pals, PGA Golf Catalunya and Club Golf d'Aro Mas Nou are just some of them. The clinic is specially designed for groups looking to learn the basics of golf and to gain an overall idea of the sport.

The group will be taught the basic theory to start playing, as well as the most commonly used terms in the golfing world.

Afterwards they can practice the shots they've learned in a final tournament.

## All set for a regatta!

Costa Brava offers the chance to enjoy dynamic nautical activities where the team will put their motivation and camaraderie to the test. A professional yachtsman will explain the rules of a regatta and how to steer the boat.

When the groups divide up into the different sail boats they will then go out to sea to put all they have learned into practice.

This exciting experience will finish with a tournament in the open sea and the winning team will be presented with trophies.

## Dinner and a concert in the Cap Roig Gardens

Cap Roig is one of the most important and beautiful botanical gardens on the Mediterranean. Its open air theatre is a unique setting and is used to host one of the most prestigious music festivals: the Cap Roig Festival. In addition to the festival, visitors can enjoy an exclusive dinner at the Via Veneto restaurant which has had one Michelin star for the last 40 years.

## Blind breakfast

The blind breakfast at ILUNION Hotels will give the visitor an insight into the experiences of a blind person.

It is an experience that will test the senses of even the most daring at heart. In this activity, the visitor takes part in an experiential journey to become more aware of the difficulties that a blind person has to face in an everyday task like having breakfast. The aim is to better understand the experiences of people who have some kind of disability and remember that "it's not what you achieve, it's what you overcome".
